This is a hand-drawn technical diagram of a printed circuit board (PCB) layout. The board features a central rectangular area divided into four quadrants by a vertical and a horizontal line. The outer edges of the board are defined by a double-line border, with a decorative pattern of small, rounded rectangles along the inner edge. Several components are represented by simple outlines: a large rectangle at the top left, a smaller one at the bottom left, and a long, narrow rectangle at the bottom right. A central vertical column contains two rectangles, with the top one being significantly taller than the bottom one. Numerous handwritten labels are scattered across the board, often accompanied by small arrows or lines pointing to specific features. These labels include:

- 3.2: Located in the upper-left quadrant.
- 3.3: Located in the lower-left quadrant.
- 3.4: Located in the lower-right quadrant.
- 3.5: Located in the upper-right quadrant.
- 3.6: Located in the center column, pointing to the shorter rectangle.
- 3.7: Located in the center column, pointing to the taller rectangle.
- 4.1: Located at the bottom center.
- 4.2: Located at the bottom right.
- 4.3: Located at the top center.
- 4.4: Located at the top right.
